

Licensing

Check out license for the current computer

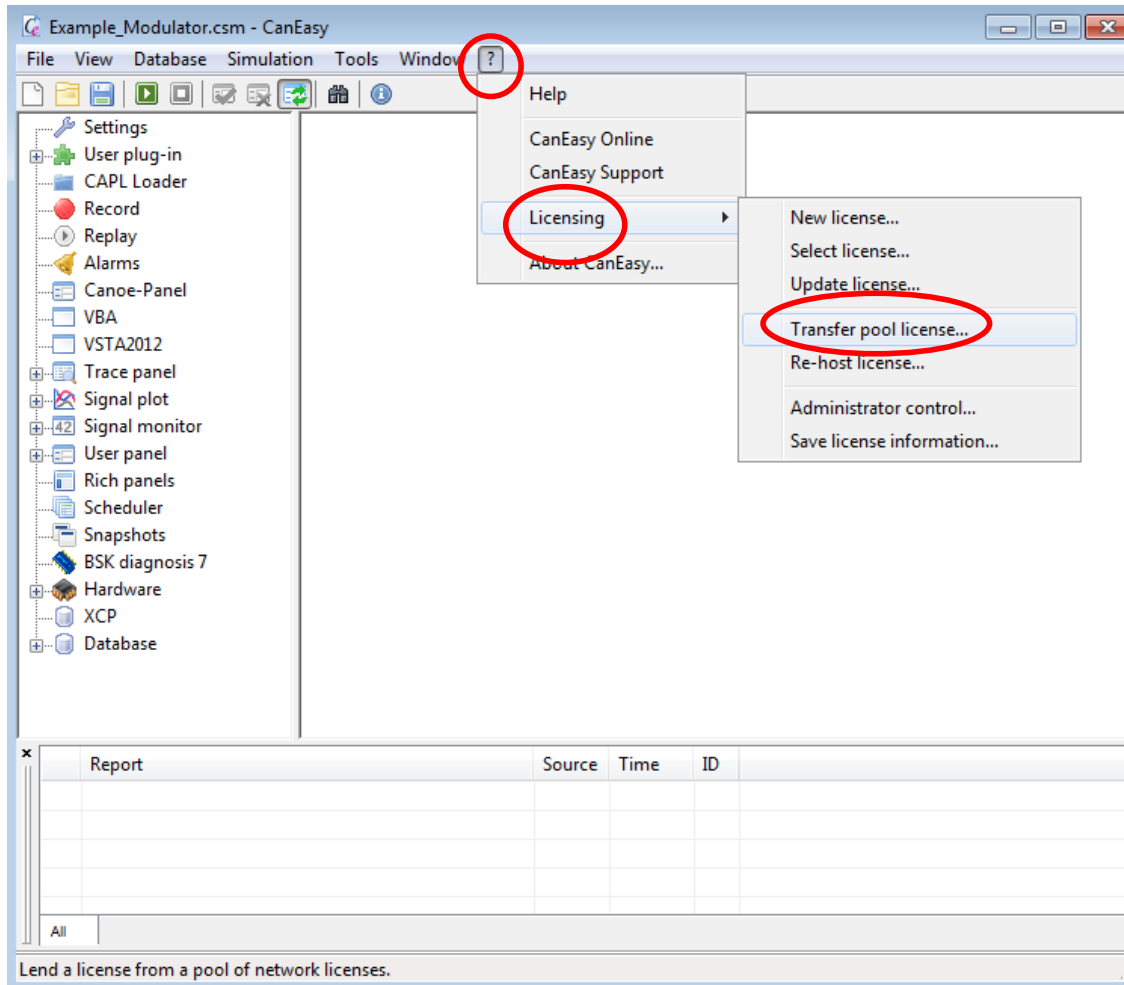

- License Types
- Check out license for the current computer
- Transfer pool license window
- Return a license

- There are two basic license types for CanEasy: purchased and leasing licenses
 - Work station license
 - User license
 - Network license (Floating license)
 - Dongle license
 - Demo license
 - Education license

Check out license for the current computer

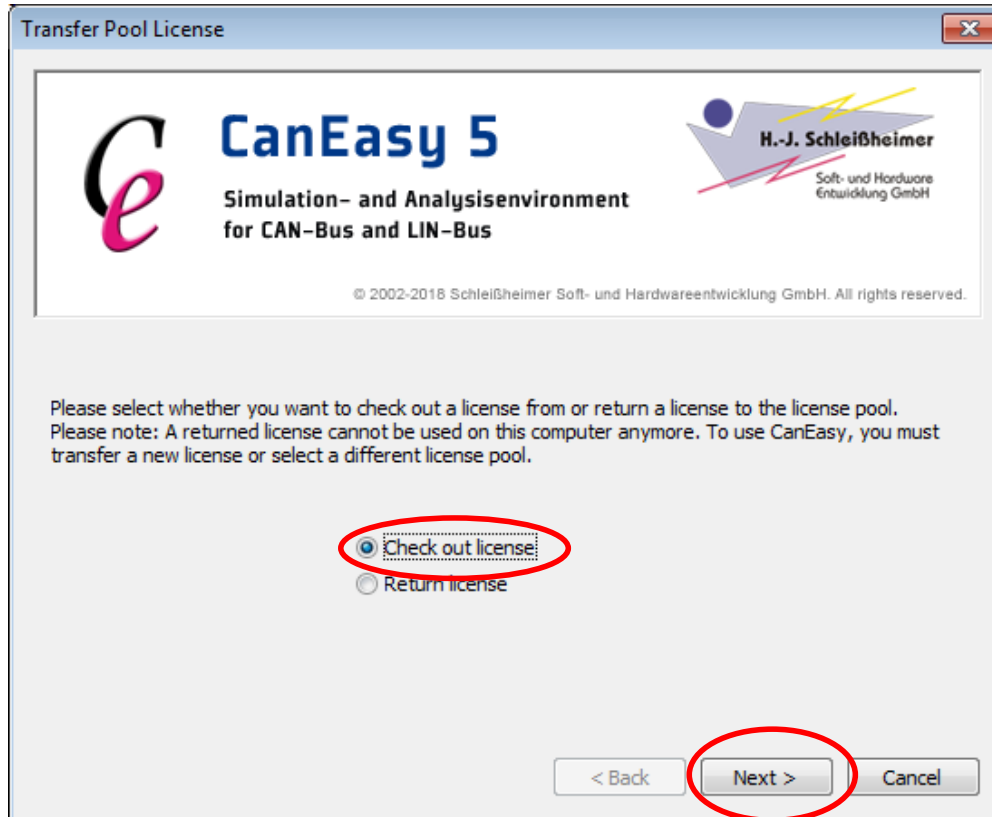

- A pool license can be used locally to equip a laptop computer for a business trip
- This computer must not be connected to the network license to run CanEasy
- If licenses are checked out from the pool, the number of simultaneously usable licenses is reduced by the number of checked-out licenses

Transfer pool license

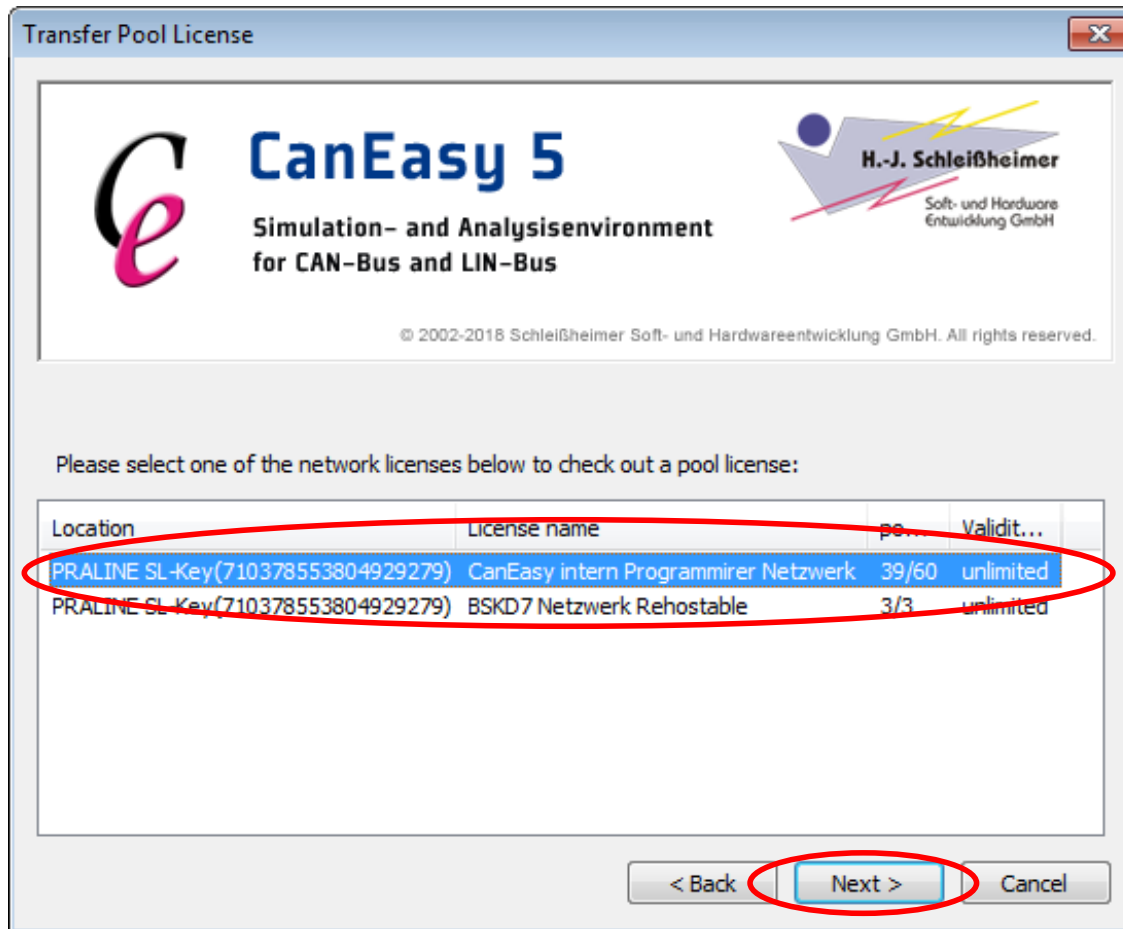

- Individual licenses can be checked out from the network license pool

Transfer pool license window

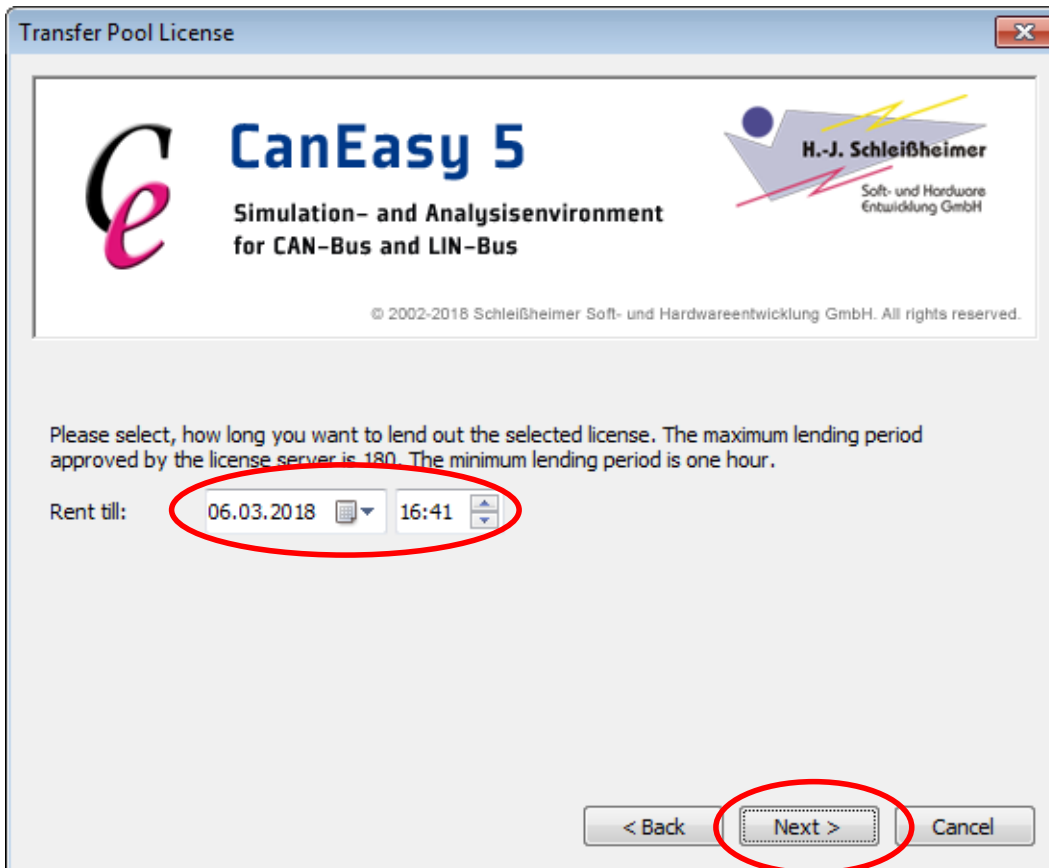

- Select the option "Check out license"
- click on "Next >"

Select a network license

- Select a network license from the list
- click on "Next >"

Desired check-out period

Transfer Pool License

CanEasy 5
Simulation- and Analysisenvironment
for CAN-Bus and LIN-Bus

© 2002-2018 Schleißheimer Soft- und Hardwareentwicklung GmbH. All rights reserved.

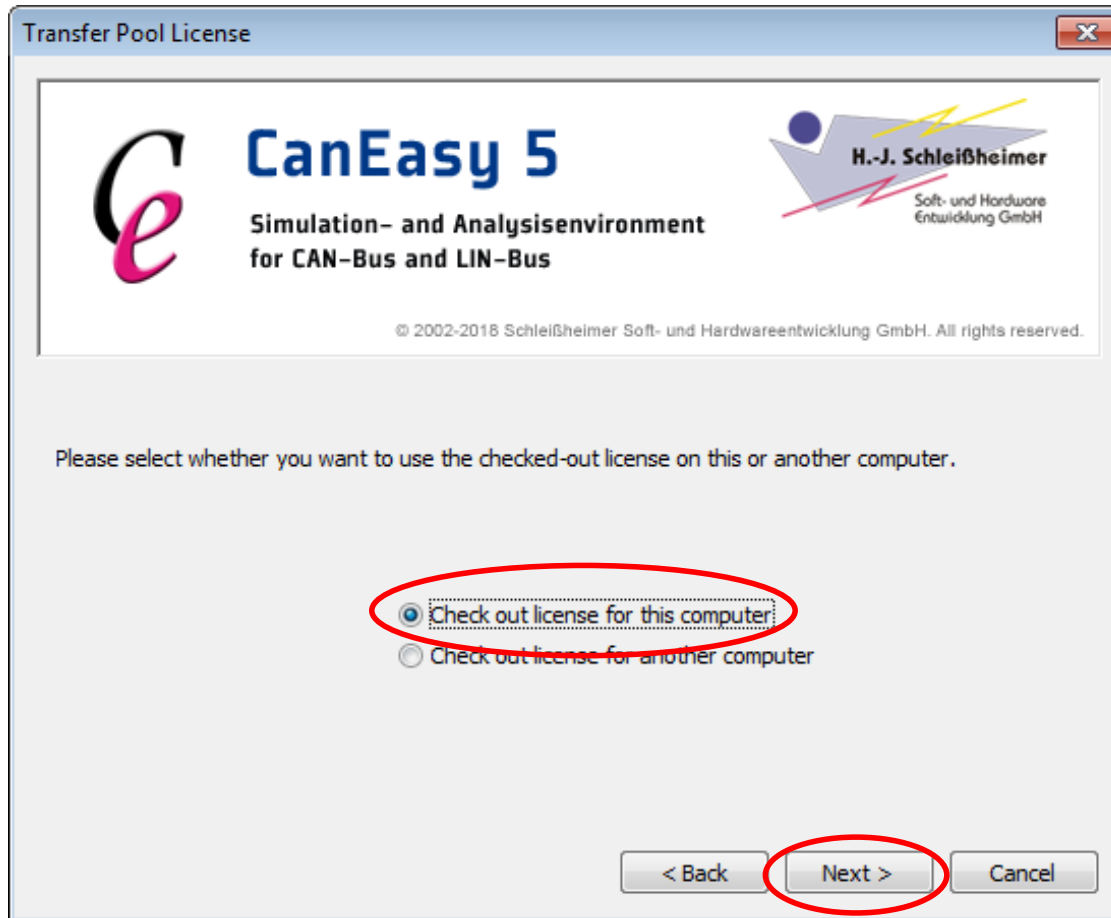

Please select, how long you want to lend out the selected license. The maximum lending period approved by the license server is 180. The minimum lending period is one hour.

Rent till: 06.03.2018 16:41
